**W**e all commence the New Year conscious of a heavy duty to fulfill which will not be free from black moments. Nevertheless, whilst working and fighting to preserve the great traditions of this Country, let us not forget the old custom of sending to friends New Year wishes for success and prosperity.

To those who have so generously aided us with their sincere co-operation to solve so many vital problems connected with our contribution to Britain's War effort we couple to these wishes our grateful thanks, hoping that peace will soon be with us—knowing victory will be ours.
