

The Young Giant...

EFFICIENT LINATEX SUBSTITUTES AVAILABLE
 Linatex being 95% pure rubber is supplied for only the very highest priority applications. But Wilkinson research has not lagged behind. A full range of Linatex Substitutes for aircraft purposes is available. Each Substitute has been designed for its particular application by Linatex technical staff to give reliable performance. Linatex visiting engineers can advise you as to the most suitable substitute to replace your Linatex or other rubber components.

"The basic ma-
 dustrialism
 Oil, Rubb
 said that?
 Dr. Goebbels
 speaking the
 have rendere
 mankind.

In referring to Rubb... doctor was,
 of course, speaking of the ordinary
 rubber of commerce. But he has no
 experience of the amazing properties
 of Linatex 95% natural rubber which
 has solved, and is solving, so many

...different in-
 Empire.
 ...carrying it is resisting
 ...% better than steel. In air-
 ...ing it is conquering vibration.
 ...in dozens of other major industries
 it is solving big problems of long
 standing.

The tremendous advantages of Linatex
 will never be at the disposal of Dr.
 Goebbels and his associates, but to
 British Industry the benefits of Linatex
 supplies, Linatex technical advice and
 the Linatex world-wide organisation
 are constantly available.

SUMMARY OF LINATEX ADVANTAGES

1. Linatex is 95% pure rubber.
2. Made entirely without heat or mastication.
3. Retains permanently the natural cell structure of living rubber.
4. "Self-sealing" and substantially non-perishing.
5. Practically indestructible from abrasion.
6. Will not corrode in contact with sea water and a wide range of chemicals or fumes.
7. Withstands dry temperature extremes of -50° C. to 66° C.
8. Weighs less than other solid rubbers.
9. Easily cut and "tailored" or built up for any application.
10. Can be permanently cemented to itself or other surfaces.

Our technical staff of qualified engineers will be pleased to tell you candidly whether Linatex can solve your problem more efficiently. Should you desire, they will gladly work with you, or train your own staff in using Linatex.
