

Stream-Line Filters, Ltd. offer equipment combining the positive and continuous removal of water with the elimination of all solid impurities from aviation fuels. This is essential for security in flight, and enables complete fulfilment of the specifications

quoted by the Ministry of Supply, Petroleum Companies, U.S.A.F., N.A.T.O., and other bodies insisting on a high standard of fuel cleanliness.

Stream-Line equipment is made available in structural detail suitable for fixed installations at bulk storage; for mounting on refuelling vehicles and on aircraft carriers; and for use as fully mobile independent units. Filters and separators are available in a wide range of sizes. The illustration shows a 3-stage filter/water separator with trailer mounting suitable for rapid movement between refuelling points.

Stream-Line Filter Water-Separators for trouble-free fuel
