

## THE BEST JUST GOT BETTER!

Certified Aircraft Parts, Inc. has specialized in logistics support for the C-130/L-100 Hercules Aircraft for over 25 years. The Company has the world's most experienced staff, probably the world's largest inventory of parts, component overhaul shops that are approved by the FAA, JAA and the aircraft manufacturer, and is a distributor for several original equipment manufacturers.

How could the Company improve on this? Certified did this by teaming with Lockheed Aeronautical Systems Support Company for worldwide logistics support for Hercules operators.  
Although we specialize in the C-130 / L-100, we still provide parts for other transport category aircraft.

## Around the World

## and across America Certified serves the Hercules.

*"We keep your Hercules in the air and on the job...  
that's a Certified Promise."*
