

Attention to detail has
made us what we are.
And you what you are.

Engineering Training Officer - Avionics

Now one of the world's major transatlantic players, Virgin Atlantic are flying to more worldwide destinations than ever before, with our fleet of mainly 747-400's and A340's. This makes the scope for a genuinely committed training officer very broad indeed.

You'll be preparing and delivering electrical, instrument and radio/radar courses to exacting CAA standards, including training our Avionics Apprentices and carrying out other ad hoc training duties as required.

To join us you must have completed a recognised aeronautical engineering apprenticeship, at least 5 years' practical aircraft engineering experience and at least 3 years' instructional experience gained on modern pressurised aircraft. Recent completion of a recognised Boeing 747-400 electrical / instrument / radio course is essential.

As you'd expect, the salary and benefits package fully reflects both your experience and our market leading status.

Please send your full CV, covering letter and current salary details to Anna Bowman, Virgin Atlantic Engineering, Unit 1, Satellite Business Village, Fleming Way, Crawley, West Sussex RH10 2NE. Closing date: 4/9/96.

LOGANAIR

AIRCRAFT ENGINEERING PERSONNEL

Loganair, which is part of British Regional Airlines Group, will shortly be expanding its current engineering function based at Glasgow and Kirkwall.

As a result, we have vacancies for aircraft engineering staff of all disciplines including Quality Assurance and Technical Records.

The main responsibilities of the positions will relate to base maintenance of our fleet of Shorts 360, Twin Otter and Saab 340 aircraft at Glasgow, and our BN2s at Kirkwall.

Applicants should possess previous experience and be willing to work a seven day working pattern.

Interested applicants should apply in writing to:-

R Emery
Base Maintenance Controller
Loganair Limited
Glasgow Airport
Glasgow

Airport Manager

Stansted

Air UK is going from strength to strength. After breaking all records in 1995, business is up a further 17% this year. We have a number of new routes. And we continue to win top travel-industry awards for service quality. With over half of our three million passengers passing through Stansted Airport, this is a key role in maintaining our position as the UK's top domestic airline.

You will ensure that all facets of ground handling operations are managed to the highest possible standards. Priorities will include operational performance, budgetary control, handling policies, and customer service standards. Through the management of our own Airport staff and our service partners, you will also play a major part in delivering our service strategy for our main hub.

A wide and thorough knowledge of airport management is essential, including at least 5 years' experience in a supervisory/management position. Personal qualities will include proven leadership and problem-solving skills, boundless enthusiasm, and the ability to take the initiative.

Salary and benefits will reflect the importance of the appointment. If you are interested in this exciting opportunity, please send a full cv (including details of your present salary) in confidence to: Adam Sands, Personnel Officer, Air UK Ltd, Stansted House, Stansted Airport, Stansted, Essex CM24 1AE. Closing date: Friday 6th September 1996. It is anticipated that interviews will take place within two weeks of the closing date.
