FLIGHT TESTED HERCULES APPROVED

Dayton-Granger's "Null-Plus" trailing and tip dischargers have become the industry standard for both corporate and commercial aircraft. Dayton-Granger's static dischargers are world renowned for their performance, strength, and reliability.

Dayton-Granger's "Null-Plus" design has logged in excess of half a million hours of flight time. The lightweight, low profile design reduces wind drag thus increasing fuel economy. The "Null-Plus" carbon tip technology provides 40 dB of noise quieting.

The "Null-Plus" static discharger is the **STRONGEST** static discharger on the market. The "Null-Plus" reputation for long term durability and reliability offers the customer substantial savings from high maintenance and replacement costs. Why pay to continually replace defective static dischargers? Buy Dayton-Granger, the aircraft tested, Hercules proven, static dischargers.

Dayton-Granger also manufactures a complete line of navigation and communication antennas for general, commercial, and military aviation.
