When it comes to delivering the specific messages to a specific audience, it's hard to beat business and professional magazines. In a recent NOP survey it was revealed that among people who regularly read a technical publication such as this, 82 per cent agreed that their business magazine provides them with valuable business or technical information, with 95 per cent of key decision-makers regularly reading the magazines specific to their sector. For details of NOP's The Power of Business Magazines research, contact Steve McGrath on 0171 400 7522.

Bahamasair

Bahamasair, the National Flag Carrier of the Bahamas, which has a fleet of 3 Boeing 737-200 Series aircraft, 5 DeHavilland Dash 8 300 Series aircraft and 3 Shorts SD3-60 200 Series aircraft, has a requirement for:

Fully Qualified Licensed A+C and Multi 'X' Avionics Engineers

Applicants should have a minimum of five (5) years experience as licensed engineers on the Boeing 737 and DHC Dash 8 300 aircraft. Experience on the Shorts SD3-60 aircraft would be an asset. Applicants will be required to have a good working knowledge of the English language.

Any Avionics workshop experience will be beneficial.

If you are interested in an overseas contract working in the Bahamas then please send your résumé with references, photograph and copies of your licences to:

Bahamasair Holdings Ltd,
ATTN: Director of Maintenance and Engineering,
P.O. Box N4881,
Nassau, Bahamas.
