Asian Aerospace ushers in a new era in aviation

As Asia-Pacific's most influential aerospace and defence show, Asian Aerospace is THE networking platform for the aviation industry, meeting tomorrow's needs with today's anticipation.

Asian Aerospace 2004 ushers in a new era in aviation with the inaugural IATA / Asian Aerospace Aviation Summit 2004 and UAV Asia-Pacific Conference 2004.

Co-organised with the International Air Transport Association (IATA) and strongly supported by Ministry of Transport, Singapore, Civil Aviation Authority of Singapore, Economic Development Board and Singapore Tourism Board, the

Co-organised by

IATA / Asian Aerospace Aviation Summit 2004

is an international forum for the global air transport community.

UAV Asia-Pacific Conference 2004, In partnership with

the region's first international showcase conference for unmanned systems, is the perfect networking platform for regional Unmanned Aerial Vehicle (UAV) developers, planners and manufacturers to showcase and discuss their concepts and technical initiatives.
