

IT DISTRESSED US TO HEAR THIS FROM A PROMINENT AIRCRAFT BUYER...

**"I DIDN'T KNOW YOU DID
PRESSWORK ..."**

We hope the few examples shown in this advertisement will help to make clear the fact that we, at TERRY'S, are proud of the accurate presswork we turn out in all metals. Our tool room is equipped with men and machines capable of tackling any presswork problem. Our research department—and our 80 years' specialised presswork experience—are always at your service. May we send you a range of samples, or instruct one of our representatives to call on you? In any case, our catalogue, covering 2,000 of our interesting stock lines, and also giving valuable spring data, is sure to interest you. Please ask us to send you a copy.
