ONE SHILLING

8 MEN AND 2 DINGHIES

After a run-in with a flock of Junkers 88s, eight of the crew of a British-based U.S. Navy Liberator crashed into the winter sea, and were rescued 20 hours later by a British Air-Sea Rescue craft. "We came down just as the light was failing, hit hard, and her nose went under water. I was stunned, and Lieutenant Lawrence Peterson dragged me out in time on to one of the two rubber dinghies.

"The next day a British air-plane found us and we were picked up by the rescue craft, 19 hours and 34 minutes after we crash-landed.

From the EVENING STANDARD,

The development and construction of the R.A.F. high Speed Rescue Launches is another of the achievements of

THE BRITISH POWER  BOAT COMPANY LTD.

Constructors of Scott-Paine designed Surface Craft.
