

NOW the Miles "Merchantman" fitted
with **GOODYEAR** Tyres, Wheels & Brakes

The Miles Merchantman is a new four-engined freighter aircraft with two sets of coupled landing wheels each one braked and all specially designed to carry an unusually heavy load. It flew its test flights on Goodyear Tyres, Wheels and Single Disc Brakes. The Merchantman is the latest of many types to go into operation fitted with Goodyear Aviation Products. These products — as the result of constant research and merciless testing — have been proved in actual service conditions to be the most reliable equipment of their kind. For further details write to Aviation Products Department, Goodyear Tyre & Rubber Co. Ltd., Wolverhampton.
