

**It's
better
to
come
clean!**

WELCOME TO WICKMAN'S . . .
to see the world's best

STAND 28: Wickman Multi and Single Spindle Autos, Optical Profile Grinders, Tool Grinding Machines, etc.

STAND 26: Continental and American Machine Tools.

STAND 203: Wimet Tungsten Carbide and Electronic Equipment.

STAND 291 is the Wickman Exhibition "H.Q." to which you are cordially invited for a rest and a chat. See also the Film Show.

PRODUCTION men should never keep their troubles to themselves; it leads to testiness towards harmless bystanders and even general morbidity. It's better to come clean—to Wickman's. A production problem is just Wickman's cup of tea; for the Wickman way is dedicated to supplying exactly the right machines and tools for the job—to cut costs, save time and jack up the quality. That's why nearly all production men who try the Wickman way find their difficulties straightened out. Make this simple test: call us any time!

*"and when it comes to cutting tools"—says Doc Wickman
—"don't forget that Wimet Tungsten Carbide tools are
undeniably top of the class and Daddy of them all!"*
