★ We gratefully acknowledge the co-operation of the Gloster Aircraft Co. Ltd. in the development of this scheme

Specification DTD 772 is a scheme embodying the requirements of :—

- DESIGN —Aerodynamic cleanliness and durability.
  - PRODUCTION —Speed and ease of application.
  - OPERATION —Ease of maintenance and repair.
- In use on R.A.F., Naval and Civil types.

*This specification is based on the previously well-known Dockers' C.R. High Speed Finish and proved by 2½ years' practical experience on record-breaking and production Jet Aircraft. Our Technical Service is entirely at your disposal and enquiries are invited to our Aircraft Department.*
