CELESTIAL Navigation for Yachtsmen, 3rd Edition by M. Blewitt. This little book, intended especially for beginners, should receive a very warm welcome from every yachtsman who has wanted to learn the art of navigation by the heavenly bodies, but has been deterred by its apparent complexity. In particular, it will make an immediate appeal to all who feel their mathematics are not up to standard, for neither geometry nor trigonometry play any part in the author's explanation—indeed, even those who can manage little more than addition and subtraction should master this book with ease! 64 pages. Illustrated with 26 diagrams and graphs. Price 7s. 6d. net. By post 8s. from all booksellers, or Iliffe & Sons, Ltd., Dorset House, Stamford Street, London, S.E.1.

DICTIONARY of Photography, 18th Edition, edited by A. L. M. Sowerby, B.A., M.Sc., F.R.P.S. This book has been established as a standard reference work for practising photographers, amateur and professional alike, for over sixty years. During that time it has been revised at frequent intervals and brought up-to-date. The present enlarged edition has been almost entirely re-written. The articles on "Colour Photography" and "Cinematography," specially contributed by Percy W. Harris, Hon. F.R.P.S., editor of "Modern Camera Magazine," and G. H. Sewell, A.R.P.S., respectively, have also been re-written in the light of recent developments. The dictionary also gives up-to-date formulae for every process, new and old. 21s. net from all booksellers.
