SITUATIONS WANTED

A. V. ROE & CO. LIMITED PROJECT DESIGN

A.V. Roe & Co. Limited are expanding their teams working on new civil and military projects of advanced design, and a number of vacancies exist for Aerodynamicists and Performance Engineers.

A new Project Group is also being set up at the Company's Woodford Aerodrome which is in rural Cheshire, and applicants will have the opportunity of transferring to this Group.

The appointments, which carry monthly staff status, are to be made initially at the Headquarters Design Group, Manchester at salaries commensurate with qualifications and experience.

Applications are invited from personnel who have had several years' experience of aerodynamics and performance problems associated with Aircraft Design or who have worked for a number of years on project design or research.

A Group superannuation scheme is operated.

Applications, which will be treated in the strictest confidence, quoting reference number R.249/F, should be addressed to:

The Chief Designer,

A.V. ROE & CO. LIMITED,

Greenidge, Middleton, Manchester.
