

# BRITISH AIRCRAFT CORPORATION

the most powerful aerospace  
company in Europe

**BAC aircraft and weapons systems have been chosen by over half of all the countries in the world.**

BAC One-Eleven 500—now in service with BEA, operating soon with BUA, Caledonian, Paneuropa and Bahamas Airways—is the 25 per cent bigger, 15 per cent cheaper-to-operate version of the short and middle distance BAC One-Eleven jetliner now serving destinations in 50 countries worldwide. Ordered and re-ordered over 50 times by 29 operators, BAC One-Elevens are a splendid example of the worldwide success British Aircraft Corporation has achieved with a massive and balanced aerospace programme ranging from space engineering and defence technology through long and short haul airliner programmes to precision instruments and industrial products.
