**HERE ARE
TWO GOOD REASONS
TO INVESTIGATE
THE AEROSPATIALE**

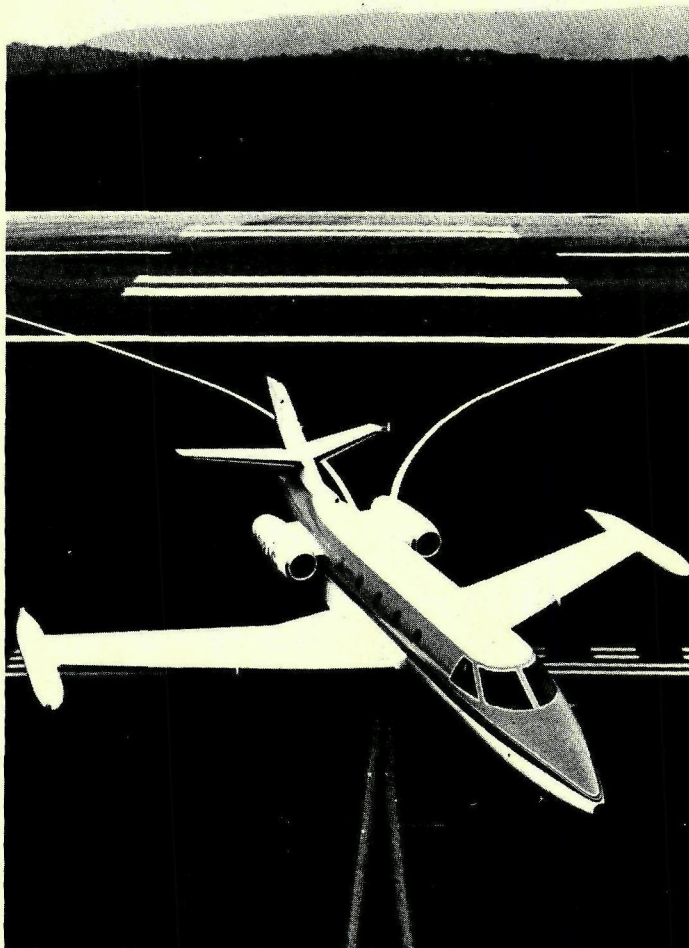

Corvette

Versatility

CORVETTE carries up to 14 passengers on feeder-lines operated in France by companies such as Air Alsace or TAT and offers the comfort of a jet with operating costs comparable to those of a turboprop. In addition to service with third level airlines, the versatile CORVETTE can also be used as a luxury VIP aircraft carrying 6 passengers. Quick-change conversion from feeder-line configuration to executive version takes less than two hours.

Low operating costs

CORVETTE was designed for maximum savings in operation. Fuel consumption and maintenance costs are remarkably low. Ask us for more details on this subject. We'll give you the facts.

**Versatility and economy:
two good reasons to include CORVETTE in your fleet.**
