## SERVICE CENTRE IS NOW OPEN

The establishment of a European Aerospace Service Centre at Rosemount's UK headquarters in Bognor Regis brings major benefits to all European airline operators.

Here, you have the support of one of the most experienced teams of instrumentation engineers in the world. (No less than you'd expect from the world's largest instrumentation company.)

And, since Bognor Regis is also home to Rosemount's European manufacturing facilities, repairs turnaround is cut to the minimum, typically just 12-15 days.

As you would expect, the Centre is a CAA/FAA registered repair station and carries ISO 9001 approval.

For more information, contact Allan Thomas, European Service Manager at Rosemount Limited, Heath Place, Bognor Regis, West Sussex PO22 9SH, UK. Telephone (0243) 863121. Spec 2000 SITA LONRSXD. Facsimile (0243) 863047. Telex 86218.
