

WORLD CLASS MAINTENANCE

A reputation for World Class Maintenance has attracted over 70 airlines from all around the world to GAMCO (Gulf Aircraft Maintenance Company).

Ideally situated in the Arabian Peninsula, GAMCO's services attract customer airlines from as far afield as North America, the Caribbean, the Far East and Africa. Customers who recognise our skills and realise the benefits of our one-stop maintenance facility in Abu Dhabi.

We maintain airframes, engines and components providing fast turn-around times, at the most competitive rates and supply full technical support for the Gulf Air fleet. GAMCO is certified by the major aviation authorities to provide high quality service for Boeing 707/727/737/747/757/767, Airbus A300/A310/A320/A340 and Lockheed C130/L100 aircraft. GAMCO also has a world class reputation for its expertise on the Lockheed L1011 Tri-Star aircraft, having completed several major modifications, including rear spar web replacement.
