

■ What are the gearing ratios of the major airlines?

■ What is the level of borrowings in the worldwide airline industry and how do borrowings compare with carriers' aircraft assets?

■ How have recent losses affected airlines' cash flows and balance sheets?

■ What different balance sheet structures are airlines using?

This special report from Airline Business brings together detailed financial information about most major airlines in a concise, consistent and accessible format. The 300 pages include four pages of detailed data on each of the 57 airlines covered, including profit and loss account, balance sheet and cash flow state-

Getting results

Airline financial profiles

ments, ratio analyses and charts. All data is also provided on diskette.

The July 1995 edition is available now, at a price of £300 (or US\$480)

including the data diskettes. The report will be updated every six months to allow for different airline reporting periods, and purchasers of the July edition will be entitled to buy the December edition at a special half-price rate.
