

# THE SKY COP

THE ATR 42 MP SURVEYOR IS THE ULTIMATE TECHNOLOGICAL RESPONSE TO EVOLVING DEMANDS OF MARITIME SURVEILLANCE, FROM MEDIUM-RANGE MARITIME PATROL MISSIONS FOR THE TRACKING AND IDENTIFICATION OF SURFACE VESSELS TO SAR, FROM ANTI-PIRACY AND ANTI-SMUGGLING OPERATIONS TO POLLUTION DETECTION AND CONTROL. EQUIPPED WITH MPMS - MARITIME PATROL MISSION SYSTEM - AND CUTTING-EDGE ON-BOARD INSTRUMENTATION, THE SURVEYOR HAS ADVANCED TRACK-WHILE-SCAN CAPABILITY, EVEN AT NIGHT AND IN ADVERSE ATMOSPHERIC CONDITIONS. AND IT TAKES LESS THAN YOU CAN IMAGINE TO CONVERT THE AIRCRAFT, SO IT CAN SWITCH RAPIDLY BETWEEN ROLES AND OPERATE EFFECTIVELY IN A RANGE OF SCENARIOS FROM MARINE SURVEILLANCE TO MATERIAL AND PERSONNEL TRANSPORT. THE NEW ATR 42 MP SURVEYOR, FOR A SAFER WORLD.
